HOME PREVIEW

Find luxury, value and friendly community

Since 1986, Carma Yoder and her husband Amos has offered luxurious living at affordable pricing in their manufactured home community, Four Seasons-Dream Homes in Belvidere.

"We are family owned and will continue to be," says Carma.. "We started off with 152 home and now we have almost 600."

The Yoder's are most proud of two things they believe sets Four Seasons apart: high quality affordable housing and a real of community.

"We have beautiful, luxurious highquality built homes at a very affordable prices," Carma stresses. In addition, the homes are energy efficient with 2 by 6 sidewalls, superior insulation, leading to energy savings for the homeowner. The community is also meticulously maintained, she says, with festive lights in the holiday season and lovely flowers popping up everywhere in the summer.

"We offer all this plus amazing kitchens with endless cabinets and spa baths," she adds. Other amenities include kitchen islands, bay windows, skylights and fireplaces.

Prices range from \$69,900 to \$118,900 for a three bedroom, 2.5 car garage home.

Four Seasons kitchens provide a lot of cabinet space. The exceptional value is possible because the homes are factory-built in a controlled environment.

The sense of community has led many residents to refer to Four Seasons as their own "Mayberry," says Carma.

Convenience is also key to living here. Residents walk to shopping, restaurants and medical facilities. "Many of our residents love the fact that they don't have leave the area for anything." Carma says.

Carma adds that the community is very appealing to retired people. "We have received notes and letters from residents who have thanked us for making their retirement easier."
